

Lecture 30 — Preparing for the Final

Jeff Zarnett
jzarnett@uwaterloo.ca

Department of Electrical and Computer Engineering
University of Waterloo

September 1, 2026

The exam is based on material we have covered in the lectures & labs.

The exam is cumulative: covers from the first lecture to the last.

Lab material you are expected to know covers Labs 1 through Lab 5.

How to prepare for the final exam:

- 1 Review lecture notes, slides, and videos.
- 2 Do the practice assignments.
- 3 Understand your lab solutions.
- 4 Try old exams.
- 5 Ask questions in Piazza if you need.

The exam will take place according to the registrar's office schedule.

It's a closed book exam, with the reference sheet.

There will be no questions allowed during the exam.

The exam will be 30-40% written questions; the rest programming questions.

The written questions will resemble previous offerings' final exam questions.

The programming questions will resemble the labs and assignments.

“The Force is with you, young Skywalker...
But you are not a Jedi yet.”
